

Special Services for Payrolls of Professional Services Firms

South Florida Payroll Services recognizes the unique requirements of Professional Services Firms. Our payroll system adds efficiency to your firm by offering you payroll, HR Management, background checks, benefits and COBRA administration in one system. You won't need multiple systems, which reduces the possibility for errors and saves time.

In addition, our payroll system is robust:

- It allows multiple users with complete or limited access so you can delegate payroll and HR responsibilities while maintaining the confidential nature of the information.
- From one screen you can access all employee information such as pay rates, and taxes, deductions, accruals, and HR information to make quick updates. In addition, you can use our Batch Editing feature for group updates on accruals, deductions, pay rates, Workers' Comp codes and more.
- With over 250 custom fields you can track employee information specific to your business. Track training, certification, company property, FMLA, EEO statistics and more that can all be reported on with our robust Report Writer. You also receive many Standard Reports after every payroll. South Florida Payroll doesn't purge your data for terminated or current employees so you always have digital access to your historical information (previous employees are stored as "inactive").
- Our payroll system also tracks changes with an audit trail so that you can always determine what changes were made, who made the changes and when the changes were made.
- We offer SFPS Timeweb so that employees may clock in and out online (subject to administrative approval).
- We offer a full online payroll application which is much more efficient and accurate than traditional payroll by paper check
- We maintain our payroll system at the highest level of industry standards for security and back-up.
