

Special Services for Schools

- We offer SFPS Timeweb so that employees may clock in and out online (subject to administrative approval).
- We offer a full online payroll application which is much more efficient and accurate than traditional payroll by paper check
- Our payroll system will easily allocate earnings, stipends, honorariums, and other types of income to different departments efficiently with one click.
- From one screen you can access all employee information such as pay rates, and taxes, deductions, accruals, and HR information to make quick updates. In addition, you can use our Batch Editing feature for group updates on accruals, deductions, pay rates, Workers' Comp codes and more.
- With over 250 custom fields you can track employee information specific to your business. Track training, certification, company property, FMLA, EEO statistics and more that can all be reported on with our robust Report Writer. You also receive many Standard Reports after every payroll. South Florida Payroll doesn't purge your data for terminated or current employees so you always have digital access to your historical information (previous employees are stored as "inactive"). We make tracking HR information easy so you don't have to run two systems in your school.

Our goal is to be an asset to your business—your time is valuable and should not be spent on payroll details. Leave the details to us and go about educating your students! [Click here to read our 6-point performance guarantee!](#)
